

PROCEDURE TO UNLOCK NO FLY ZONES

1. Go to the DJI Geo Zone Map to check the current status of the no-fly zones before you travel to the site. No Fly Zones change, for Sporting event dates as an example.
If there is a no fly zone during your planned flight, go to:
2. DJI Geo Zone Map website, Support/Fly Safe/Unlock a Zone/Self Unlocking for 3 days of unlocking per drone.
3. Phantom 4 Pro, Flight Controller Serial Number = XXXXXXXXXXXXX
4. Mavic Air, Flight Controller Serial Number = XXXXXXXXXXXXX
5. At the DJI unlock web page, enter the above serial numbers for the drone you will fly, or both drones.
6. Have your phone ready for verification code. Re-enter code into website.
7. Turn on Drones and go the General Settings to Import the unlock into the aircrafts.
8. When you turn on the GSP app, you must logon to the DJI website to get the Unlock permission first. Your Login name is: [XXXXXXXXXXXXXXXXXX](#) your password is: XXXXXX
9. Now you can fly in this location for 3 days until you repeat this procedure.
